2

<Rear view>

3

Connect the power and start up the Dongle.

1. Turn on the TV and set the video mode as HDMI.
2. Plug the Dongle into the HDMI port on the TV and then, connect USB to USB port on the TV.
3. Some TVs can't provide enough power through USB port so you may need to use a 5V adapter to supply enough power to dongle.
4. Please use USB extension cable (provided on the package) if HDMI port and USB port are far away.
5. LED light on the dongle will be turned on when it's properly connected with TV.

4

Miracast Mode

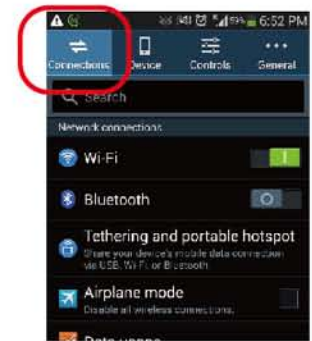

Turn on the Dongle and below picture will be displayed.

5

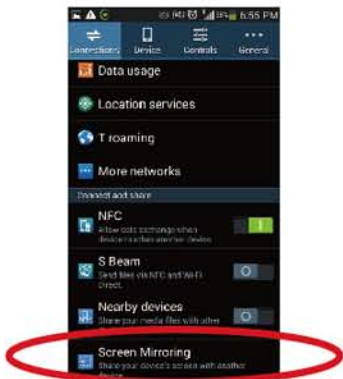

Enable Wi-Fi on the smart phone (or tablet PC), go to "Settings", then go to "Connections".

See below picture for reference.

6

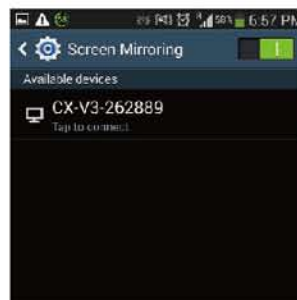

And then go to "Screen Mirroring". See below picture for reference.
